A LETTER FROM THE MOUNTAIN MOMS.....

PROGRESS OVER PERFECTION

Read on to see how Mt. Washington continues to put families first!

As moms working at Mount Washington Alpine Resort, we are thankful for the unique opportunity to watch our children and the mountain community grow through every season. We value the importance of quality family time and finding the balance between getting enough exercise for both our children and ourselves! From first bike rides and big hikes in the summer to first turns and lifelong progression on snow, there is nothing better than seeing kids, families and, just as importantly, our instructors build confidence, develop skills and fall in love with the mountain. **Continue Reading on pg 47**

Manager of Snow School, Summer Camps & Daycare

A LETTER FROM THE MOUNTAIN MOMS CONT.

This summer was an exciting one for our Alpine Adventure Camps and Bike Adventure Camps, with significant growth in participation and more kids than ever spending their summer exploring Mount Washington. Our Alpine campers hiked, explored, visited the Marmot Recovery Centre, played and adventured their way around the mountain. Meanwhile, our Bike Adventure campers built confidence and skills on two wheels in the Bike Park and Skills Park while also learning about trail building and what goes into creating the trails they love to ride.

The response from families has been incredible, and the growth of both programs has given us the opportunity to take the next big step. Next summer, we are expanding to eight full weeks of both Alpine and Bike Adventure Camps, expanding our age groups and evolving our mentor program, guiding graduated campers into camp mentors and future instructors! We are so excited to welcome even more campers to the mountain and continue developing these programs. All our Adventure Camps will open for registration in early April, so mark your calendars—many camps sold out quickly this past summer!

As summer winds down and our focus shifts back to snow, we want to say a huge thank you to all the families who continue to support our Alpine and Nordic Snow School lessons and programs year after year.

Last winter certainly gave us some challenging conditions, but one of the things we were most proud of was the skill

development we saw across our seasonal programs. With the terrain we had available, our instructors went back to basics, focusing on strong fundamentals, purposeful mileage and making the most of every learning opportunity.

"Progression doesn't always require perfect conditions or endless terrain."

That same approach carried into our instructor training, with fantastic results. We saw a high pass rate among the Mount Washington Alpine instructor crew taking their Level 3 instructor exams. It was a great reminder that progression doesn't always require perfect conditions or endless terrain. Sometimes, getting back to the fundamentals and focusing on skill development is exactly what creates the biggest breakthroughs. We can't wait to see that progression continue this winter.

We've also made some exciting changes to make Snow School work even better for families. Alpine full-day group lessons now include lunch and supervised lunch coverage, providing families with lesson coverage from 9:30 am–3:30 pm. That means a full day of learning, skiing or snowboarding and fun for the kids — and a little more uninterrupted mountain time for parents!

Making skiing and snowboarding more accessible continues to be an important focus for us. Our Night Discover Ski and Snowboard Group Lessons start from just \$54, creating an affordable way for

new skiers and riders to experience the mountain, learn the basics and discover what makes snow sports so special. And there's something new this winter: Thursday Night Discover Lessons are 40% off! It's another way we're working to reduce barriers and give more people the opportunity to get on snow, develop their skills and become part of our mountain community.

Our Nordic Centre continues to offer accessible and affordable fun for individuals and families! Our cross-country ski and snowshoe trails provide a gateway to Strathcona Park and Raven Lodge is your home base for XC ski lessons, guided snowshoe tours, rentals, tobogganing and enjoying a post adventure treat!

New this winter, Family Fridays are coming to the Nordic Centre, where kids will cross-country ski or snowshoe for free! Fridays from 9am–4pm, families will receive a **free** child day pass, with the purchase of an adult pass! Be sure to check out Raven Café after your adventure for Family Friday food specials as well!

Whether we see you hiking or biking with us in the summer, making your very first turns this winter, progressing through one of our seasonal programs, or working toward your next instructor certification, thank you for continuing to be part of our mountain community.

Here's to another season of learning, progression, adventure and plenty of time outside!
